COURSE GUIDE 2015

Introduction By The Commandant

Welcome to the «Multinational Peace Support Operations Training Center» Course Guide 2015. This catalogue shortly presents a brief history of our Centre, the capabilities, the facilities and a detailed list of the courses conducted by MPSOTC. More details are available to our official web page (www.mpsotc.gr) for the upcoming year.

Our Center is a PfP Training Centre which has been recognized by NATO SG with the name «PfP Training Centre in Greece» since 2000. Additionally, it is recognized by UN and conducts the UN Military Observers' Course. So far, MPSOTC has carried out a series of significant activities including both national and international courses, seminars and Mobile Training Teams.

The training objectives comprise a varied spectrum of activities. However, the key training objective is to provide academic and field training, which is in accordance with the most current international accepted standards, to all participants.

Additionally, the MPSOTC supports the pre-deployment «mission-specific» training of national contingents, which are tasked to participate in PSOs, prior to their mission assignment.

The highly professional lectures, the realistic field training, our contemporary facilities and the appropriate administrative and logistics support ensure MPSOTC's elevated professionalism to meet students' expectations. The courses are continually revised and updated to reflect current developments and PSO demands.

In conclusion, I am looking forward to seeing you in one of our upcoming courses, always considering the well-known memo:

**«As the ground is unable to produce something without cultivation,
thus the human mind cannot give the expected results, without education»
(Plutarch's, 47-120)**
